

Thank you very much.

Time to pick up the tempo a bit with a song by another British rock band - "Queen" - composed and performed by their leader - Freddie Mercury. Mercury wrote the song in 1981 as a tribute to Elvis Presley. It became the first #1 hit for Queen and Mercury in the US, topping the charts for 4 weeks here as well as 7 weeks in Australia.

\_\_\_\_\_ and I will join our voices now in this great hit from the 80s that describes a "Crazy Little Thing Called Love."
