

Thank you.

Now, we'll really switch gears and play a type of music near and dear to my heart. As some of you may know, my great grandfather came to America from Bohemia, so I have a Czech heritage. And the national dance of the Czech Republic is the polka. So, we're going to play one of those critters right now. It's title is "Maricka Moje." For those of you here who do not speak fluent Czech, the translation is "My Marie."

Enjoy the polka!
