

Thank you.

In the following year, 1951, Louie took a Spanish song “Adios Muchachos” written in 1927 which had a tango beat and turned it into a completely new creation. He kept the tango beat but substituted a lyric created by Dorcas Cochran, and his recording of this new creation lasted 16 weeks on the Billboard charts.

Here we go with this song about an individual who is completely enraptured by his loved one and, as a result, his mind goes off into the wild. It’s called “I Get Ideas.”
