

Thank you.

We can't let this evening go by without playing at least one song from the dance craze that swept the nation back in the 60's, led by Chubby Checker and followed by many others. What dance was that? Right - the twist.

We'll play one of the great numbers from that period now. This one became the song that vaulted a singing group by the name of the Ventures to national fame. They actually recorded 2 versions of the song, and each version became a top ten hit.

So, get ready to move your feet and wiggle your hips. Here's our version of a suggestion for you - "Walk, Don't Run."

Let's twist, everybody!
