

Thank you very much.

Our next song was written back in 1938 and although none of us would probably remember the movie, we all know the star of the movie. He was one of the all-time greats in comedy in movies, and he went on to do countless USO shows for our soldiers serving in World War II. Who was he? Right - Bob Hope.

Bob also had a radio and TV show, and this song became his signature piece. Does anyone remember the name of his theme song? Right - "Thanks For The Memory." Enjoy.
