

Thank you very much. Our next song was written back in 1933 and it was included in the Tennessee Williams play "A Streetcar Named Desire" as well as the Star Trek series Deep Space Nine. Artists who have recorded it include the Paul Whiteman Orchestra, the Nat King Cole trio, Ella Fitzgerald, and a whole host of others.

Recently, the movie "The Water Horse: Legend Of The Deep" included the song as recorded by Benny Goodman. Here is" It's Only A Paper Moon."
