

Thank you.

For our final tribute to Tony Bennett, we'll play his signature song, written in 1954, and first performed by Tony in 1961. Tony said that this song helped make him a world citizen. It allowed him to live, work and sing in any city on the globe. It changed his whole life.

The topic of the song is a city on the west coast of the US. Anyone have a guess as to the title of Tony Bennett's theme song? Right - "I Left My Heart In San Francisco."

Here we go!
