

Woeeee! Thank you very much.

Now, let's take time to recover from all the excitement with a nice waltz from the 1947 Broadway musical "Finian's Rainbow." It tells the story of a guy who has a rather novel way of dealing with situations involving the girls in his life.

His solution is quite simple. The song is titled "When I'm Not Near The Girl I Love." Listen, and I'll tell you all about how he makes do with this unfortunate circumstance.
