

Thank you. Thank you very much. Our next song was written in 1915, but it didn't really become famous until it was recorded by the Mills Brothers. It then rose quickly in popularity and held the number one position on the Billboard hit charts for 12 weeks, from early November of 1943 to late January of 1944. It has been named one of the Songs Of The Century and has been inducted into the Grammy Hall Of Fame.

Here's our version of "Paper Doll."
