

Thank you. Thank you very much.

This next song was originally recorded by another artist in 1952, but it was made famous by the singing and gyrating of the man known as "The King." Who was that? (Response). Right - Elvis Presley

When Elvis first sang this song, complete with his gyrations, some TV shows wouldn't allow the camera to show him below the waist - they thought his gyrations were too suggestive. \_\_\_\_\_, are you going to imitate Elvis on this one? (Response). OK. Here's his big hit - "Hound Dog."
