

Thank you very much.

Our next selection was a #1 hit back in 1958 about a man in love with a woman who initially does not return his affections. The man goes to see a witch doctor for advice. The wise witch doctor replies, "Oo ee oo aa aa ting tang walla walla bing bang." That's supposed to do the trick, I guess.

_____, will you join with me in telling these folks all about this strange doctor? (Response). OK. Here's our version of that great hit "Witch Doctor."
